MEMO

from the Office of the Citizen:

To the 8th National Assembly:

We the people consider Corruption to be the defining problem of our generation. Please consider, debate and pass a Bill in the terms of the proposed Corporate Corruption Act available at www.bribe.org, which will introduce:

- *a penalty of liquidation for serious corporate corruption,*
- *total assets forfeiture for individual conspirators,*
- *financial reward to whistle-blowers of 1% of liquidation proceeds,*
- *Corruption prosecution by any of Nigeria's 37 attorneys general.*

We are happy to recall anti-people lawmakers who oppose this Bill under S.69 of the Constitution of the Federal Republic of Nigeria.
